

REMARKS

This case has been reviewed and analyzed in view of the Official Action dated 10/26/2006. The Official Action is a Restriction Requirement where the Examiner has required identification of what the Examiner believes to be patentably distinct species of Fig. 5, or Fig. 6.

Applicant, after reviewing the Restriction Requirement, hereby elects the single disclosed species of Fig. 5 for further prosecution in this case.

In Fig. 6, "the ribs 23 further have respectively a straight hole 230 for the combining ends 41 of the support bars 4 to insert therein, and an opening 231 formed in the intermediate section of each rib 23 for the recess 42 of each support bar 4 to stick out, securing the support bars 4 with the plate body 2."

However, the feature about the ribs 23 is not claimed in any of the claims 1 to 4. Thus the claims 1 to 4 have no relation to the Fig. 6.

It is believed that Claims 1 to 4 are readable on Fig. 5 and thus by this Response, Applicant elects Claims 1 to 4 for further prosecution in this application.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted.

I-WEN LU
